## The Issue

This petition is to register support for Marcus Andrade, ceo of NAC and the Amlbitcoin project.

After securing Worldwide & multiple patents for digital biometric identification on the blockchain. The Amlbition project has completed an Initial Coin Offering (ico), then a token, and a beta testing stage, the project now is in its final coin stage where Amlbitcoin holders today, currently, possess a V1.15 Amlbitcoin wallet; Amlbitcoins and the means to create amlbitcoin blockchain digital assets. Furthermore, via a Virtual Mining Key holders have the means to mine Amlbitcoin transactions – a way to earn more Amlbitcoins. In summary, the Amlbitcoin project has actually delivered a unique blockchain product, with active patents, the ability to mine and create digital assets, using biometric identity. Amlbitcoin has an active functioning cryptocurrency live product, which is currently available on two exchanges.

The Amlbition blockchain is visible at [www.amlexplorer.com](http://www.amlexplorer.com) & provides an accountable record of every amlbitcoin transaction on the amlbitcoin blockchain for all interested parties to observe. Making each amlbitcoin holder accountable, and responsible for their own actions.

The Amlbitcoin system furthermore, cross-references International Sanctions lists and other information available to ensure known 'bad actors' do not gain access to the Amlbitcoin payment system. This process, ensures identities of Amlbitcoin holders are known, as holders have to supply Biometric, Passport and Driving licence information to pass the Amlbitcoin ID verification process.

Essentially, the Amlbitcoin project aims to provide, a clean accountable blockchain system, as a means to provide a secure payment system, across The World.
